DETAILED ACTION

1. This action is in response to amendment received on 10/29/04. Claims 1-27 are pending.

Allowable Subject Matter

2. Claims 1-27 are allowed.

EXAMINER'S AMENDMENT

3. An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.
4. Authorization for this examiner's amendment was given in a telephone interview with Nathan R. Maki (Reg. No. 51,110) on 11/18/2004.
5. The application has been amended as follows:

Please amend the claims 12 and 13 as follows:

Claim 12. (presently amended) A method of passing data between a first time domain and a second asynchronous time domain, the method comprising:

receiving a first data signal generated with respect to a first clock signal associated with said first time domain;

receiving a second data signal representing said first data signal delayed by a first measure such that during transition of said first data signal said second

data signal is valid, and during transition of said second data signal said first data signal is valid;

receiving a selector signal representing said first clock signal delayed by a second measure; and

selecting between said first and second data signals based at least in part upon a first state of a second clock signal associated with said second time domain and a second state of the selector signal.

Claim 13. (presently amended) The method of claim 12, wherein the second measure is such that at any given sampling point of said selector signal said selector signal will select valid data.
